PREFACE

This report reflects the origin of student enrollments for the Fall Semester 1970 of the forty-three accredited Kentucky colleges and universities. The enrollments are aggregated for each institution, by state and country, and Kentucky resident students by county of origin. These figures are total enrollment by headcount and are reconciled with the Council publication, Kentucky College and University Enrollments 1970.

The Kentucky state-supported and independent institutions of higher education enrolled 92,282 students for the Fall Semester 1970. This was an increase of 1,024 students over 1969. A few general findings relating to the overall enrollment characteristics of the state-supported sector of higher education and the independent sector follow:

1. Kentucky high schools graduated 42,657 students in 1970, a decrease of 220 when compared with 42,877 graduates in 1969.

2. The number of 1970 Kentucky high school graduates entering college in the Fall of 1970 decreased 847 students or 4.4 percent. The number of graduates planning to enter Kentucky colleges and universities decreased by 791 students or 4.6 percent. The number of graduates entering out-of-state colleges and universities decreased by 56 students or 3.4 percent from 1969, and approximately 12.4 percent of the graduates planning to enter college were to attend college out of state. The percentage of 1970 high school graduates entering colleges in Kentucky and elsewhere was 43.4 percent, down slightly from 45.2 percent in 1969.

3. While the total college and university enrollments for the Fall of 1970 exceeded the total for 1969, this was not the status for all campuses individually. Twenty-four colleges and universities experienced increases in their total enrollments and nineteen enrolled a smaller number of students.

4. The 1970 population of Kentucky was 3,219,311. The number of Kentucky residents enrolled in the colleges and universities of the Commonwealth is equivalent to the ratio of: One out of every 43 Kentucky citizens attends an accredited Kentucky college or university. This manifestation also reveals one out of every 51 Kentuckians attends a state-supported college or university and one out of every 261 Kentuckians attends an independent college or university.

5. The total enrollment of Kentucky colleges and universities increased 1.1 percent from the Fall Semester 1969 to the Fall Semester of 1970. An analysis of this percentage shows the total enrollment of the state-supported institutions increased 2.8 percent during this period, and the total enrollment of the independent institutions decreased 5.1 percent.

6. 74,585 Kentucky residents enrolled in the accredited colleges and universities of the Commonwealth for the Fall Semester 1970. This figure reflects a 2.9 percent increase in Kentucky students from the Fall Semester of 1969. Of this percentage, the state-supported colleges and universities experienced a 4.5 percent increase enrolling 62,222 Kentuckians, and the independent institutions enrolling 12,363 Kentuckians, a 4.8 percent decrease from 1969.

7. The Fall Semester 1970 first-time freshman enrollment of Kentucky colleges and universities decreased by 726 students or 3.4 percent from the same period in 1969. The effect of this decrease reveals the state-supported institutions were 4.1 percent or

678 first-time freshmen below 1969, and the independent institutions were 48 students or less than one percent below the 1969 first-time freshman level.

8. The number of Kentuckians enrolling as first-time freshmen in 1970 decreased 649 students from the 1969 level. The state-supported colleges and universities enrolled 605 less Kentuckians as first-time freshmen in 1970, and the independent colleges and universities 44 students less than the 1969 level.

9. Out-of-state students enrolled in Kentucky colleges and universities decreased 5.7 percent from the 1969 level. The state-supported colleges and universities decreased their out-of-state enrollment 5.8 percent and the independent institutions enrolled 5.5 percent less out-of-state students in 1970.

The data utilized in this report relating to high school graduates was obtained from the Kentucky Department of Education publication, Holding Power and Graduates. The Kentucky college and university enrollment data utilized in this report was submitted by the institutions. We express our appreciation to the colleges and universities of Kentucky and to the Division of Research, Kentucky Department of Education, for their cooperation and assistance in developing this report.
